## Cost Efficient 3' Bulk RNA-seq

SCellex offers cost-efficient 3' bulk RNA-seq library preparation for gene expression profiling.

### Pricing for library preparation (VAT 0%)

|               |                        |
|---------------|------------------------|
| 24 samples    | 996 € (41.50 €/sample) |
| 25-48 samples | 40 €/sample            |
| 49-72 samples | 38 €/sample            |
| 73-96 samples | 36 €/sample            |

### Sample requirements

RIN 8-10 preferred • 10 ul/well (96-well plate) • 20 ng/ul • Equal concentration across samples • Species lacking poly(A) mRNA not compatible

(Lower volumes, concentrations, and RIN has to be agreed separately)

**\*1 rack per customer: Offer valid until end of March'26**

**FREE  
MAGNETIC RACK  
FIRST 10 ORDERS\***

### What's Included

Library prep • QC • Sequencing core delivery • Alignment • Gene counts

### Not Included

RNA extraction • RNA QC • Sequencing • Advanced data analysis
